2 Handling Services - Contractual Handling

2.1 General terms of application

By the Handling services listed in this Fees and Charges list are meant sets of partial services provided during the process of handling aircraft in scheduled or non-scheduled operations and general aviation, which are not charged individually but as a whole. Services, which are not part of the particular set of handling service or services on demand, will be charged separately in line with this Fees and Charges list.

Invoice payments are possible for contractual customers only or in case there is a binding written order for services in place. By signing the contract with the airport operator - provider of airport ground handling services the customer agrees with the range of services provided and its price.

Handling will not be charged in case of the following flights:

- Flights SAR;
- CAA and ANS CR performing control and inspection flights ordered or in the interest of LKKV;
- Air ambulance flights directly related to the human life rescue

Fees and charges for handling services are always billed to an aircraft with MTOW over 2.00 tons; aircraft with MTOW over 2.00 tons to 5.70 tons inclusive; subject to specific conditions as set out in the paragraph 2.3.4. these aircraft may be charged "assistance" only. All sets of handling services include basic services (i. e. minimum charge) which are provided in all cases and hence billed to each aircraft.

2.2 Sets of handling services

2.2.1 Basic Handling

Basic handling includes the following basic services only:

- Assistance by handling agent (issuance of ground handling orders, sending messages, providing information and necessary coordination)
- Standard services (guiding, chocking, assistance with engine turning off/on).
- GPU - maximum of 60 min.
- 1x stairs (if the particular type of aircraft does not have own)
- Crew transport to/from aircraft
- Completion of operational and cargo documentation

2.2.2 Traffic Handling

Traffic handling will be charged in all cases when the flight is about to carry passengers (passengers are being checked in), unless the complete handling services are performed and charged. Traffic handling includes the following set of services:

- Basic handling,
- Passenger and baggage check in
- Security checks of crew, passengers, their cabin and hold baggage
- Pushback

2.2.3 Transit handling

2.2.3.1 Ferry in

Transit handling includes services as referred in point 2.2.2 and is charged when there are **NO passengers on arrival**.

2.2.3.2 Ferry out

Transit handling includes services as referred in point 2.2.2 and is charged when there are **NO passengers on departure**.

2.2.4 Complete Handling (Full Handling)

Set of complete (Full) handling services includes traffic handling and is enhanced by cleaning services, cabin services (cleaning the toilets, refill of drinking water, disinfection, etc.) and loading and unloading of catering.

For flights operated to new destinations, subject the SGHA is signed, an introductory price in the form of 50% discount from the applicable handling rates could be granted for up to 12 months. This introductory price may be granted to all scheduled carriers for each new destination. In order to further develop the traffic, the airport operator may further incentivise the airlines for a limited period of time (not exceeding 36 months) by offering other types of discounts or incentives.

2.3 Basic handling rates

2.3.1 Aircraft with MTOW over 2.00 tonnes to 12.50 tonnes inclusive

Basic handling	CZK 5 500.00
Traffic handling	CZK 9 500.00

c) Aircraft from 5 701 kg MTOW	CZK 1000.00

In the case of training flights the assistance could be charged at 50% of the full rate, subject the flight was declared as a training one in advance. **The assistance rate for aircrafts from 5701 kg MTOW may be used only in cases of training flights and when no other services apart from marshalling are required. In all other cases the applicable price as per the Fees and Charges List will be charged accordingly.**

2.3.5 Flight operations outside the airport published operational hours

Besides of published charges an extra charge is accounted to cover extra operational costs **for each initiated hour of operation** of the aerodrome outside published operational hours. The charge is accounted from the time stated in the service order and it is calculated for every hour the airport remains in operations outside the published operational hours.

Scheduled flights are exempt from this charge.

Applicable surcharge (per hour or part thereof):

a) For aircrafts requiring fire-fighting category up to 4	CZK 10 000.00
b) For aircrafts requiring fire-fighting category 5 to 7	CZK 15 000.00

2.4 Security

- Security inspection of the aircraft on request - **CZK 450.00**;
- Physical surveillance aircraft on the ramp on request - **CZK 350.00**/1 hour or part thereof for each individual security officer;
- Issue and lending of ID card for permanent entry into the Security Restricted Area - **CZK 500.00**/1 card; not applicable in cases of the first issue and regular renewal for airport operator employees;
- Issue and lending of an approval for permanent entrance to the Security Restricted Area - **CZK 500.00**/1 card and 1 vehicle; not applicable to the airport operator and contractors who perform work on behalf of the airport operator based on the order or contract;
- Other necessary trainings and instructions to employees of external entities accessing the airport - OSH, fire safety etc., for each commenced hour **CZK 300.00**; not applicable to the airport operator and contractors who perform work on behalf of the airport operator based on the order or contract;

3 Landing fees

The landing fee at Karlovy Vary Airport is calculated based on the internal categorization of an aircraft and its MTOW. The basis for calculating the landing fee is the maximum take-off weight of aircraft (MTOW) specified in the certificate of airworthiness of the airplane.

Category 1: aircrafts up to 2000 kg MTOW including: CZK 600.00 (flat rate)

Category 2: aircrafts over 2000 kg MTOW according to the formula: **price in CZK = $((\text{MTOW} - 1.5) / 47)^{0.8} * 15000$**

Note: MTOW is substituted in whole tonnes rounded up, for example, 2560 kg = 3.00 t, 21866 kg 22.00 tons

Table of exact landing fees for all types of aircraft is included in this price list as Annex 1

3.1 Introductory charges

The introductory prices of landing charges are applied for scheduled operations to the new destination traffic and for adding new frequencies on existing routes.

For new destination operations the levels of discounts from the regular landing charge are:

One frequency	1 st year 95%
	2 nd year 50%
Two or more frequencies	1 st year 95%
	2 nd year 75%
	3 rd year 50%

For incremental frequency to the existing destinations the discounts from the regular landing charge are:

1 additional rotation/week	1 st year 25%
2 additional rotations/week	1 st year 33% for each rotation

3.2 Landing fees exemptions

Flights of the following aircraft exempted from landing fees:

- Flight that returns due to technical problems or weather conditions at the departure airport and aircraft forced to make an emergency landing
- SAR flights,
- Flights by CAA and ANS CR performing control and inspection lights ordered by or in the interest of LKKV
- Air ambulance flights directly related to the human life rescue,
- Flights performed exclusively for the transport of Royalty, Heads of State and Government, Ministers on official missions;

3.3 Charges for training flights

3.3.1 Landing fees for training flights

Training flights are charged based for each full tonne of MTOW the following landing fees:

Full landing of A/C up to 100,000 kg MTOW	26.6% of the applicable landing fee
Touch and Go	50% of the landing fee stated in paragraph 3.3.1

In the case of a domestic operator, the training flight (with no passengers) reported 24 hours in advance (using the SITA network (KLV CZXH), email handling@airport-k-vary.cz or fax +420 353 360 636) it is possible to grant a discount of 50% from the applicable fee. The request should be filed together with the order for ground handling. Based operators and permanent users with signed the co-ordination agreement in place could be granted additional discount of 50%.

3.3.2 The fee for use of the safety lighting equipment during the training period

The use of the safety lighting equipment during the training flights will be subject to the charge that is equal to touch and go operations, i. e. each fly through will be charged at 50% of the full landing fee stated in paragraph 3.3.1.

Notes:

- a) Touch and go - the aircraft (wheels) touches ground and starts without speed reduction to taxiing speed (or without stopping on the track)
- b) Full landing - a landing with a stop (anywhere) or speed reduction to the taxiing speed

4 Parking fees

The maximum take-off weight of the aircraft (MTOW) as specified in the certificate of airworthiness and the length of parking in hours are used to calculate the parking charges.

4.1 Aprons APN M, APN W, APN E

For every hour and tonne MTOW or part thereof:

From 05.00 - 19.00 LT	CZK 14.00
